Product information, including uses/applications and source(s) of imports:

Volleyballs are spherical sports balls that are typically 25 to 27 inches (56 to 64 centimeters) in circumference and 9 to 10 ounces (250 to 280 grams) in weight. Volleyballs are produced to a variety of specifications, including competition, indoor, outdoor, practice, training, and youth. The highest quality competition balls have nylon-wound butyl rubber bladders and 18-panel, hand stitched, leather covers. Composite leather (polyurethane and polyvinyl chloride (PVC)) and other materials are also used as cover materials. While leather-covered volleyballs are most often designed for indoor use, they are also often approved for outdoor use.

China is the dominant import source and accounted for 68 percent of U.S. imports of volleyballs in 2008, followed by Thailand (10 percent), Japan (9 percent) and the Dominican Republic⁵ (7 percent). Imports entering free of duty under the Generalized System of Preferences (GSP) accounted for 14 percent of total U.S. imports in 2008. The leading suppliers of imports under GSP in 2008 were Thailand, Indonesia, and Pakistan.

³ The proponent identified 18 additional beneficiaries of this bill. The USITC sent inquiries to the additional beneficiaries and received responses from six. Four of these six submitted a written representation that they would benefit from this bill.

⁴ Heading 9902.13.10, which expired at the end of 2009, had afforded duty-free entry to the subject goods.

⁵ Dominican Republic is a member of the Dominican Republic-Central America-United States Free Trade Agreement and, thus, does not receive GSP treatment or benefits of the Caribbean Basin Economic Recovery Act. Under tariff classification rule 3 to chapter 96, as set forth in HTS general note 29(n), inputs from outside the list of countries in general note 29(a) that are used in such goods must be classifiable in other HTS chapters.

Estimated effect on customs revenue for the subject product classifiable in HTS subheading 9506.62.80:

	2010	2011	2012	2013	2014
Col. 1-General rate of duty	4.8%	4.8%	4.8%	4.8%	4.8%
Estimated value <i>dutiable</i> imports ^a	\$13,000,000	\$13,000,000	\$13,000,000	\$13,000,000	\$13,000,000
Customs revenue loss ^b	\$624,000	\$624,000	\$624,000	\$624,000	\$624,000

a/ Dutiable import estimates were based on official U.S. Government statistics.

b/ At the request of Congress, customs revenue loss is provided for 5 years, although the effective period of the proposed legislation may differ.

Technical comments:⁶

None.

⁶ The Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only the U.S. Customs Service is authorized to issue a binding ruling on this matter. The Commission believes that the U.S. Customs Service should be consulted prior to enactment of the bill.
